Create additional wealth without unnecessary stress and complication

While you focus on your business, career or family, we can manage every aspect of your development including; feasibility, finance, planning and permits, subdivision, construction, services, landscaping and completion.

Step One—Feasibility

Is your development feasible and what is the likely Return On Investment (ROI) considering:

- Planning zone, overlays, neighbourhood character & other restrictions.
- What type and number of dwellings should provide the greatest ROI?
- Construction costs on this site?
- Other costs including; surveyor, building designer, town planner, council fees, authority fees, demolition, subdivision, & others?

Our Feasibility Assessment addresses these questions & provides a comprehensive cost estimate, usually within 7 days. Contact us for a no obligation quote today. We make it easy.

Property Advance
Subdivide and build with everything taken care of

Thinking about
developing?

We provide a secure and customised property development solution that minimises risk and maximises return.

Contact Grant Dixon now on 0438 860 043 to discuss a feasibility assessment for your project under no obligation. www.propertyadvance.com.au

Property/Advance
Subdivide and build with everything taken care of

The logo for Property Advance features the company name in a serif font, with a stylized red and white graphic element resembling a diagonal slash or a stylized 'A' between the words. Below the name, the tagline 'Subdivide and build with everything taken care of' is written in a smaller, sans-serif font.
